# VISUAL PLANNING
Powered by Stilog I.S.T.

PMC

Optimize your resources,
Effectively drive your activities,
Enhance productivity !

Visual Planning is a collaborative, flexible and mobile scheduling platform.

Allocate resources and share schedules with colleagues, customers, and partners to work together more efficiently.
Available in: Saas, On Premise, Subscription modes.

VISUAL PLANNING
Powered by Stilog I.S.T.

The Planning Management Software with the widest functional coverage on the market...

Our role is to provide our clients with a personalized solution suited to companies' requirements from any sector or area of expertise. Available through "SaaS" or On-premise installation: configuration can range from one to thousands of users.

Core Visual Planning Features

User interface

• Personalize the look of your schedules: Icons, Colors, Graphics, Views, & Custom Editors
• Create your own "favorite displays" and customize views at your convenience

Real-time Collaborative

• Centralize and share information
• Save time and reduce errors
• Leverage dedicated communication chatrooms for team discussions

Easy Integration

• Sync your data with ERP, SIRH, CRM, GMAO etc.
• Delete Duplicates
• Connect Visual Planning to your Ldap
• Activate the SSO

Advanced customization features

• Create your own "multi-dimensional" data structure based on your business requirements

Main features:

• Dashboards and widgets
• View schedules, agenda, GANTT, Kanban, map, plan, etc.
• Calendars
• Constraints
• Filters
• Models
• Workload plan
• Control columns
• Critical path
• Event Reports
• Workflows
• Data exchange
• Mailings
• Rest API
• Broadcasting & notifications: mail, SMS, iCal
• Geolocation
• Blueprint

Multi-Platform access

For daily users
VPPortal
Access and update schedules from our web-based module, VPPortal

For mobility
VPGo
Stay connected from anywhere. Download the app to your Android and iOS mobile devices

... which goes along with dedicated services suited to your daily scheduling requirements

Our Mission

We strive to meet all your business, schedule, and resource management needs regardless of your environment, constraints and/or business practices. Our dedicated teams use a unique and iterative methodology to provide you with an efficient and easy-to-use solution suited exclusively to your business and operation processes.

Personalized services

We support you from A to Z for the implementation of your Visual Planning configuration and through a wide range of support tools & services.

Consulting

Our consultants convert your various planning processes into operational applications. Through their training and experience, they master specific concerns depending on the business sector and better understand scheduling processes.

Project Management

Our project managers are all senior consultants. Beyond the management of your project, they provide you with relevant insight into your internal processes & more.

Training

Our instructors provide on-site training for a variety of skillsets. Learn the essentials about Visual Planning or develop an in-depth background on resource management. The training programs are built according to your context and user profiles: users, planners, administrators, etc.

Assistance

Our technicians are mobilized to solve any incidents under our SLA conditions. They will assist you to provide you with the most effective solutions to answer your requests.

Development

Beyond providing support on Visual Planning's API, our development engineers are at your disposal to carry out and implement any type of specific external configuration related to Visual Planning.

TMA: Tierce Maintenance Applicative

Visual Planning's TMA Plan provides our clients: maintenance, administration operations, evolution parameterizations, and user follow-up. Additionally, clients have access to dedicated interlocutors and privileged access services.

VISUAL PLANNING
Powered by Stilog I.S.T.

Stilog I.S.T., your reliable partner that paves the way to your company growth.

Founded in 1991 in France by Christophe Poirmeur and François Berthelot, Stilog I.S.T. is the publisher of Visual Planning and provides custom programming services. By joining in 2014 the ICE Group, an engineering and technology consortium with multiple sites in France and Europe, Stilog I.S.T. has found a synergistic partner that shares its common vision of growth and delivering excellence in service and solutions to its customers.

With headquarters in France and a subsidiary in the US, Stilog I.S.T. is also present around the globe through a partner network. Certified ISO 9001 since 2018, the IT company is focused on providing custom made solutions and bringing best-of-class technologies and expertise to help customers achieve their goals in terms of productivity, quality, and reliability.
